Patient Record Sharing

Summary Care Record (SCR)

All patients registered with a GP have a Summary Care Record unless they have chosen not to have one. The information held in a Summary Care Record gives health and care professionals, away from their usual GP practice, access to information to provide them with safer care, reduce the risk of prescribing errors and improve their patient experience. **More information can be found by visiting, https://digital.nhs.uk/services/summary-care-records-scr/summary-care-records-scr-information-for-patients**

Tick this box if you wish to opt-out of the SCR ☐

Electronic Data Sharing Module (EDSM)

LLR services use the SystmOne record system to share information with each other

Tick this box if you wish to opt-in to the EDSM ☐
Tick this box if you wish to opt-out to the EDSM ☐

Healthcare places can usually share information from your records by letter, email, fax or phone but this can slow down your treatment or mean information is hard to access. However, you can choose to share your record electronically between care services. **For more information, please visit our website at https://www.aylestonehealthcentre.co.uk/**

LLR Care Record

The LLR Care Record (LLRCR), part of the national Shared Care Records (ShCR) programme, will bring together a person's separate records into a structured, easy-to-read format. This will give health and care professionals directly involved in an individual's care, a more complete view of the care and treatment that they have received across all services. It will mean information recorded about someone's health and care such as illnesses, treatments and hospital admissions can be accessed by different people who are involved in their care.

Opting Out

Health and social care professionals can inform patients how their information is shared and tell them how they can object if they want to. Objecting will not affect their treatment, but the LLR Care Record will make information sharing quicker, easier, and more complete, which helps to get the right treatment at the right time, especially in an emergency situation.
Patients will need to register their wish to object with the information governance lead at the relevant health and care organisation they are receiving care from. **More details about patients' information rights can be found by visiting**

Supplementary Questions

Patient Declaration for all patients who are not ordinarily resident in the UK

Anybody in England can register with a GP practice and receive free medical care from that practice.
However, if you are not 'ordinarily resident' in the UK you may have to pay for NHS treatment outside of the GP practice. Being ordinarily resident broadly means living lawfully in the UK on a properly settled basis for the time being. In most cases, nationals of countries outside the European Economic Area must also have the status of 'indefinite leave to remain' in the UK.
Some services, such as diagnostic tests of suspected infectious diseases and any treatment of those diseases are free of charge to all people, while some groups who are not ordinarily resident here are exempt from all treatment charges.
More information on ordinary residence, exemptions and paying for NHS services can be found in the Visitor and Migrant patient leaflet, available from your GP practice.
You may be asked to provide proof of entitlement in order to receive free NHS treatment outside of the GP practice, otherwise you may be charged for your treatment. Even if you have to pay for a service, you will always be provided with any immediately necessary or urgent treatment, regardless of advance payment.
The information you give on this form will be used to assist in identifying your chargeable status, and may be shared, including with NHS secondary care organisations (e.g. hospitals) and NHS Digital, for the purposes of validation, invoicing and cost recovery. You may be contacted on behalf of the NHS to confirm any details you have provided.

Please tick one of the following boxes:
a) ☐ I understand that I may need to pay for NHS treatment outside of the GP practice
b) ☐ I understand I have a valid exemption from paying for NHS treatment outside of the GP practice. This includes for example, an EHIC, or payment of the Immigration Health Charge ("the Surcharge"), when accompanied by a valid visa. I can provide documents to support this when requested
c) ☐ I do not know my chargeable status
I declare that the information I give on this form is correct and complete. I understand that if it is not correct, appropriate action may be taken against me.
A parent/guardian should complete the form on behalf of a child under 16.

How will your EHIC/PRC/S1 data be used? By using your EHIC or PRC for NHS treatment costs your EHIC or PRC data and GP appointment data will be shared with NHS secondary care (hospitals) and NHS Digital solely for the purposes of cost recovery. Your clinical data will not be shared in the cost recovery process.
Your EHIC, PRC or S1 information will be shared with The Department for Work and Pensions for the purpose of recovering your NHS costs from your home country.
